

CHRISTIAN PURCARIU

UI/UX Designer

christian.purcariu@gmail.com

+43 660 7173329

I am a former programmer who was really into coding until I realized that the creative world intertwined with visual aspects is where I feel home. Now that I changed my direction, I can not wait to gain more knowledge and experience in the field of UX. I am really passionate about understanding the why's and coming up with useful, innovative solutions for all kinds of problems.
